

UCAS Apply - new 2021 OIB qualification

Students applying to UK universities through UCAS should now choose the qualification “France – Option Internationale du Baccalauréat (OIB (from 2021))” in the Education section of UCAS Apply; the series box has been removed. Students enter the modules they are taking as free text, and suggested translations can be found below. ASIBA will run a university entrance Zoom session in November and more details will be circulated soon.
