SUMMER READING

You should try to read as often as possible in English during the holidays. As discussed in class, choose a genre you are interested in. You can get help on how to choose via sites like BookBub (for Kindle e-readers) and/or Goodreads or ask your parents.

Students in 5^e

EQUIPMENT

- ONE presentation folder (“porte vue”) 80 sleeves
- “Cahier travaux pratique 24x32 - 48 pages) - *with one blank (unruled) page facing one lined (ruled) page*
- **BOOKS to purchase:** (any print/paper version or edition is acceptable should you not find the prescribed edition):

 - *The breadwinner* BY Deborah Ellis ISBN-13 : 978-0192787385

The above works will be studied together in class, so you should not read them in order to discover the exciting storylines in class as we read along.

Please note that you will be advised of a third novel to purchase once we have finished studying the above novels.

SUMMER ACTIVITIES

Please read AT LEAST one book of your choice in English (this could be fiction or non-fiction).

For ideas, you may look at:

schoolreadinglist.co.uk/reading-lists-for-ks3-pupils/ - look at the Year 7 and Year 8 lists for inspiration.

Please design a BOOKMARK that represents a character, a symbol, a quote or a theme from your book to show the class when you get back.... you have complete creative freedom! Your bookmark will be useful and accompany you on your journey throughout the year while you discover the extraordinary treasures of English literature...

JUST FOR FUN: Take 2 (or more!) photos of yourself reading in different locations during the holidays. I will create a digipad for the class during the holidays in order to enable you to upload it in September.

As an introduction to Gothic, please find out as much as you can about this intriguing literary genre and conduct some research using YouTube on the famous American author Edgar Allan Poe. In your exercise book, carefully illustrate the first page with Gothic symbols, adding key words that you associate with the genre as a whole.

To put you in the mood for your 4^{ème} literature course, I suggest you choose at least two books from this list to read in the holidays. Gothic is best read at night, as you listen to the owls hooting outside your bedroom window, and watch the clouds fly across the full moon!

*****Required close summer reading*****

'The Curious Incident of the Dog in the Night-time' by Mark Haddon - read and annotate your copy (this means while reading, have a pencil in your hand and underline/make notes around the text on interesting sections, anything that strikes you as worthy of discussion. Give each chapter a heading to remind you what happens. This will take you longer than usual, so allow yourself plenty of time. It will mean you are really connecting with the text and paying attention to how the writer makes you react... and you will remember the story much better)
